

# UTILITY SHOP UNIQUE & SIMPLE ENERGY SOLUTIONS.

## SIMPLE

**We think life should be hassle-free.**

That's why we put all your utilities on one bill. It saves you juggling accounts from different providers. It also enables us to keep costs low and help you budget by giving you a snapshot of your total utility spending.

## SEAMLESS

**You, the customer, are our business.**

Good service helps us grow through referrals and happy customers who stay for the long haul. No cheap introductory deals that turn into pricey tariffs. No wordy terms and conditions or contracts that lock you in for a lifetime. A single bill, competitive pricing and a commitment to give you a fair deal.

## SAVINGS

**We're always thinking about new ways to save you money.**

Competitive pricing is just the start. Combining your utilities on one bill helps us cut costs and we pass those savings onto you. Also, we don't waste money on expensive advertising campaigns full of empty promises. We let our record do the talking.
